Зле скинуто.Іокалініле Manual of instructions/ maintenance of Bravo Nilfisk product 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 An important point after purchasing a Nilfisk Bravo device (or even before purchase) is to read its user manual. You need to do this for several simple reasons: to know how to properly use the device to know how to perform maintenance/periodic checks of the proper operation of the Nilfisk Bravo product to know what to do in case of Nilfisk Bravo failure If you have not yet purchased Nilfisk Bravo, this is a good time to familiarize yourself with the basic product data. First of all see the first pages of the manual, you can find above. You should find there the most important technical data Nilfisk Bravo - so you can check if the material meets your expectations. When you delve into the next pages of the user manual, Nilfisk Bravo will learn all the available features of the product, as well as information about its operation. The information you receive from Nilfisk Bravo will definitely help you make a decision about the purchase. If you already own Nilfisk Bravo, but have not yet read the manual, you should do so for the reasons described above. You will then find out if you have used the available functions correctly, and if you have not made mistakes, which can shorten Nilfisk Bravo's lifespan. However, one of the most important roles played by the user manual is to help solve problems with Nilfisk Bravo. You will almost always find there Troubleshooting, which are the most frequently occurring failures and malfunctions of Nilfisk Bravo along with tips on how to solve them. Even if you don't solve the problem, the manual will show you a further process – contact your customer service center or your nearest service center
